

## INTERNAL / EXTERNAL CALL

### The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at Molecular Neurodegeneration Group

#### T1A- Junior Laboratory Technician AC ISCIII 21

#### About the Unit / Group:

Main lines of research:

- Neurodegenerative disease: Analysis of the structural bases of exon-7 exclusion from SMN2 and the implications for the pathogenology of spinal muscular atrophy (SMA). Structural and functional investigations of PINK1 kinase and implications for Parkinson's disease.

- Thrombosis and hemostasis: structural and functional investigations of blood coagulation factors, with an emphasis on thrombin interactions with physiological substrates (factor VIII and protease-activated receptors).
- Lipid metabolism and dyslipidemia: bioinformatics analysis of STAP1 mutations identified in individuals with hypercholesterolemia

### Essential requirements

- Minimum qualification required Higher Level Professional Studies (Higher Level Training Cycle / FP II) or equivalent
- Oral and written knowledge of the two official languages of Catalonia
- Intermediate knowledge of office tools (excel, word, power point, etc).

### Skills will be valued

- Knowledge of neurodegenerative diseases

### Functions

- Preparation of tissue for biochemical fractionation.
- Preparation of biofluids for SIMOA and mass spectrometry.
- Optimization and performance of immunofluorescence immunofluorescence.
- RNA extraction

### Offered

- Permanent contract assigned to the project: AC21\_2/00017
- Contract co-financed by the Carlos III Health Institute, with file code AC21\_2/00017.
- Annual working day of 522 hours (12 hours per week)
- Salary according to ISCIII
- Molecular Neurodegeneration Research Group

## Documentation and deadline for submission

Interested parties should preferably deliver the documentation (1) in PDF, by e-mail to the Management of the Santa Creu i Sant Pau Hospital Research Institute Foundation, address [ir\\_seleccio@santpau.cat](mailto:ir_seleccio@santpau.cat) , indicating the reference **2022/245**:

### (1) Application letter and updated Curriculum Vitae

At the request of the Santa Creu i Sant Pau Hospital Research Institute Foundation, the candidates must present the documentation accrediting the merits mentioned in the curriculum vitae.

Applications will be resolved within a maximum period of one month from the end of the deadline for submission of documentation. At the end of this period, without having been notified of an express resolution, the interested parties will be entitled to understand that their applications have been rejected.
