

INTERNAL PROMOTION CALL

The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the **Inflammatory Diseases Unit**:

T4B- Senior Research Technician

About the Unit / Group:

The main lines of research at the Unit are:

- The role of the immune system in the development and perpetuation of autoimmune, immunomediated diseases and chronic inflammatory processes.
- Immunological response associated with the clinical course during immunomodulatory therapies.
- The involvement of autoantibodies, components of the adaptive immune system, in the pathogenesis of autoimmune processes.

- Mechanisms involved in immunodeficiency.
- Immunosenescence.

Essential requirements

- Minimum qualification required: Doctorate Degree or speciality (MIR, QUIR, FIR, BIR)
- More than 4 years of demonstrable experience in the specific area of work
- Oral and written knowledge of the two official languages of Catalonia
