

### INTERNAL PROMOTION CALL

### The Institute

The Santa Creu i Sant Pau Hospital Research Institute Foundation is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category.

The Santa Creu i Sant Pau Hospital Research Institute Foundation needs to incorporate at the Confocal Microscopy Platform / Biobank and Immunohistochemistry Platform:

#### T4B- Senior Research Technician

## **About the Unit / Group:**

<u>The Confocal Microscopy platform</u> is a core facility focused on biomedical research. The main function is to advise on the experimental design, choose the equipment that best suits the needs and train the user in it, acquire, quantify, and analyze images.

The Confocal Microscopy platform is certified by the ISO 9001:2015.

<u>The Biobank and Immunohistochemical Platform</u> is a support platform for biomedical research

whose main function is the processing of biological samples according to quality criteria.

The Biobank IIB Sant Pau, as part of the Biobank and Immunohistochemical Platform, is a non-profit public establishment, authorized by the Directorate General for Planning and Research in Health, of the Department of Health of the Generalitat de Catalunya and is registered in the National Registry of Biobanks of the Carlos III Health Institute.

Likewise, the Biobanc IIB Sant Pau is part of the current National Platform of Biobanks (PT20/00196), this being one of the ISCIII Platforms to Support R&D&i in Biomedicine and Health Sciences of the Strategic Action in Health.

Its mission is to obtain, process, store, manage and make available to the scientific community human biological samples and associated data, in accordance with agreed standard working procedures, as well as maintaining the traceability of the sample and its associated data, in order to promote quality biomedical research, respecting the rights of donors.

The objective of the Biobank IIB Sant Pau is to increase the accessibility of human biological samples to applicant researchers so that they can use them in their research projects, as long as they meet the ethical and legal requirements required by current legislation.

The Biobank IIB Sant Pau acts, therefore, as a link between sample donors, healthcare personnel and the scientific community for the harmonization of the rights, duties and interests of each of the groups in order to facilitate the advancement of quality biomedical research.

On the other hand, the Immunohistochemistry laboratories of the Biobank and Immunohistochemistry Platform offer biological sample processing services, both of human origin and animal models, for analysis using histological techniques, from sample processing, cutting and staining to digitalization of the preparations, histological analysis and delivery of results. The Platform offers the possibility of implementing new histological methods and stains, according to the demand and needs of our users, both internal and external.

In addition, user training is carried out so that they can use the platform's equipment in a selfservice mode.

The Biobank and Immunohistochemical Platform is certified under the ISO 9001:2015 standard for all the services offered by it.

# **Essential requirements**

- Minimum qualification required: Doctorate Degree or speciality (MIR, QUIR, FIR, BIR)
- More than 4 years of demonstrable experience in the specific area of work
- Oral and written knowledge of the two official languages of Catalonia
- Advanced level of English
- Advanced knowledge of office tools (excel, word, power point, etc).

### Skills will be valued

- Experience and/or training in Biobanks
- Experience in confocal microscopy.
- Extensive experience in digitisation of histological preparations with "slide scanner"
- Extensive experience in the analysis, in different software, of histological and immunohistological stains.
- Extensive knowledge and experience in the ISO9001:2015 quality system

## **Functions**

- Capture, digitalisation, and analysis of histological and immunohistological preparations.
- Advice to researchers in histological techniques with both cells and tissue.
- Collaborating in the development of PNTs of the Biobank and Immunohistochemistry Platform as well as the Confocal Microscopy Platform and ensuring compliance with the ISO 9001:2015 standard.

### Offered

- Indefinite contract, attached to the Research Line "Confocal Microscopy" and "Biobank and Immunohistochemistry"
- Annual working day of 1,627.50 hours (37.50 hours per week) distributed with both platforms 50% (18.75 hours per week / platform).
- Remuneration according to agreement
- Unit: Confocal Microscopy Platform / Biobank and Immunohistochemistry Platform

### Documentation and deadline for submission

Interested parties should preferably deliver the documentation (1) in PDF, by e-mail to the Management of the Santa Creu i Sant Pau Hospital Research Institute Foundation, address ir seleccio@santpau.cat , indicating the reference 2023/048:

# (1) Application letter and updated Curriculum Vitae

At the request of the Santa Creu i Sant Pau Hospital Research Institute Foundation, the candidates must present the documentation accrediting the merits mentioned in the curriculum vitae.

Applications will be resolved within a maximum period of one month from the end of the deadline for submission of documentation. At the end of this period, without having been notified of an express resolution, the interested parties will be entitled to understand that their applications have been rejected.

Santa Creu i Sant Pau Hospital Research Institute Foundation may declare this call for applications closed if, according to its criteria, the candidates does not meet the conditions that the Institution considers necessary to fill the position.

The interpretation of the requirements and their enforceability to the candidates will be exclusive to the Santa Creu i Sant Pau Hospital Research Institute Foundation.

The deadline for submitting applications will end on January 30th, 2023, at 3:00 p.m.

\*\* This promotion is subjected to the payment of the extraordinary contribution by the Health Department. However, the application of the promotion will be retroactive to 1 January 2023, in the case that the mentioned contribution is received after this date.

Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau, sited at C. Sant Quintí, 77-79, 08041, Barcelona, Tel: 93 291 90 50, NIF: G-60136934, as Data Controller and in compliance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) and the Organic Law 3/2018 of 5th of December, on the protection of personal data and the guarantee of digital rights, will treat your data with the sole purpose of developing this call. The legal basis for this treatment is the article 6.1 a, c and f from the GDPR, giving that we will ask for your consent, the treatment is necessary for the application of precontractual measures and its necessary to satisfy the legitimate interests pursued by the Data Controller.

The data will be kept during the necessary time to develop the call. Data will be treated solely by that areas and services that are allowed to in accordance with their assigned competences and functions. There will be no data cessions made unless there is a legal obligation to do so. You are entitled to exercise the rights of access, rectification, deletion, opposition, limitation and portability. In case you have any doubts, you can contact the data protection delegate at dpo\_ir@santpau.cat. You also have the right to file a complaint to the relevant control authority.

**PERMANENCE COMMITMENT:** Selected persons who will hold the summoned or vacant position, will not be able to apply for a new call until 1-year period has expired. In case of part-time job positions, this period will be of 6 months. In both cases, the period will compute from the date of publication of the resolution. The vacant summoned, and the ones that derive from it (intern movements), will be successively covered on the same proceeding among the submitted candidates to each particular call, regardless of whether this entails coverage of places in turns other than the call.
