

INTERNAL / EXTERNAL CALL

The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the **Unit of Molecular and Therapeutic Pathology of Ischemic and Atherothrombotic Diseases**:

R1A- PID 2021 MICINN

About the Unit / Group:

The main lines of research of the group are:

- Physiopathological role of LRP family proteins in chronic diseases.
- Identification and characterization of transcription factors and genetic targets.
- Role of lipids and inflammation.
- Vascular impact of ischemia and angiogenesis on heart disease. Cell therapy.

- Search for new targets to inhibit the transformation of silent atherosclerosis into ischemic syndromes: angiogenic change mediated by tissue factors.

Essential requirements

- Minimum qualification required: Higher Education (University Degree)
- Oral and written knowledge of the two official languages of Catalonia.
- Intermediate level of English
- Intermediate knowledge of office tools (excel, word, power point, etc).

Skills will be valued

- Solid academic training of University Degree and Master's Degree, with a grade equal to or greater than 2.0 with respect to the Spanish qualification scale.
- Previous experience in research laboratories in the biomedical field and in the use of sweat/plasma cells and tissues for molecular and functional studies.
- Knowledge of database use and language programming «R.

Functions

- Studies in cell cultures and animal models related to lipoproteins and cardioprotective therapies
- Molecular studies to decipher the signaling pathways and molecules involved in pathophysiological processes
- Studies on molecular biomarkers related to lipids, inflammation, atherosclerosis and thrombotic risk in cells and liquid biopsies of patients with cardiometabolic disorders and high cardiovascular risk.
- In silico analysis and statistical analysis

Offered

- Indefinite contract assigned to the project "PID2021-128891OB-I00"
This contract is funded by the Ministry of Science and Innovation and the State Research Agency, with file number PID2021-128891OB-I00; and co-financed by the European Regional Development Fund and 10.13039/501100011033 DOI.
- Annual workday of 1.627,50 hours (37,5 hours/week)
- Remuneration according collective agreement
- Research Group: Molecular and therapeutic pathology of ischemic and atherothrombotic diseases

Documentation and deadline for submission

Interested parties should preferably deliver the documentation (1) in PDF, by e-mail to the Management of the Santa Creu i Sant Pau Hospital Research Institute Foundation, address ir_seleccio@santpau.cat , indicating the reference **2023/076**:

(1) Application letter and updated Curriculum Vitae

At the request of the Santa Creu i Sant Pau Hospital Research Institute Foundation, the candidates must present the documentation accrediting the merits mentioned in the curriculum vitae.

Applications will be resolved within a maximum period of one month from the end of the deadline for submission of documentation. At the end of this period, without having been notified of an express resolution, the interested parties will be entitled to understand that their applications have been rejected.

Santa Creu i Sant Pau Hospital Research Institute Foundation may declare this call for applications closed if, according to its criteria, the candidates does not meet the conditions that the Institution considers necessary to fill the position.

The interpretation of the requirements and their enforceability to the candidates will be exclusive to the Santa Creu i Sant Pau Hospital Research Institute Foundation.

**The deadline for submitting applications
will end on February 15th, 2022, at 3:00 p.m.**

Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau, sited at C. Sant Quintí, 77-79, 08041, Barcelona, Tel: 93 291 90 50, NIF: G-60136934, as Data Controller and in compliance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) and the Organic Law 3/2018 of 5th of December, on the protection of personal data and the guarantee of digital rights, will treat your data with the sole purpose of developing this call.
