## *Una manera de hacer Europa* INTERNAL / EXTERNAL CALL

### The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the **Innovation and Technology Transfer Office**:

**A3B PT ISCIII 20 (Innovation and Technology Transfer Manager)**

### About the (Unit/Group):

The Innovation and Technology Transfer Office is looking for a new member to complete our team. The office has to support and manage the R&D generated within the IIB Sant Pau, and

transfer it to the market, reaching the patients. Thus, the candidate will be able to engage with the latest innovations that emerge from the healthcare system “from bench to bedside” and explore the different collaborations with key stakeholders of the environment.

## Essential requirements

- Graduates; Engineers; Architects; Graduates with Bachelor's Degree  $\geq 300$  ECTS assigned to Level 3 (Master); Graduates with Master's degrees ( $\geq 300$  ECTS); Diplomas, Technical Engineers and Architects with Master Level 3.
- 4 Years of working experience in Project Management and/or Business Development within the health system.
- Oral and written knowledge of the two official languages of Catalonia.
- Advanced English knowledge oral and written (negotiation level).
- Advanced knowledge of office tools (excel, word, power point, etc).

## Skills will be valued

- Additional training in Innovation, Tech Transfer, or Management of R&D projects.
- Experience in innovation management, technology transfer in research institutes, technological centres or consulting companies. Preferably within the healthcare system.
- Experience in data analysis and market studies.
- Negotiation and communication skills.
- Organized and methodologic working habits.
- Capacity to work in a team and be able to generate internal and external key collaborations.

## Functions

- Management of the innovation project portfolio of IR Sant Pau with a vision of business development and maintenance of the internal ERP management system.

- Detection and promotion of business opportunities through technological surveillance and providing support transferring opportunities to the market.
- Give support in the generation of collaborations with private companies for co-development and/or financing, generating a database for the unit.
- Collaborate in the generation of content for the dissemination and publication on the web page of the activity resulting from the unit.
- Promotion of the institution's technological portfolio, networking with companies and business partners, enhancing its international positioning.
- Promote the culture of innovation and entrepreneurship.

## Offered

- Being part of the Institute's Tech Transfer and Innovation Office as a Senior Innovation Technician under the strategic innovation unit. A consolidated office with more than 10 years of experience in managing innovation.

Resolution of the Management of the Instituto de Salud Carlos III, O.A., M.P., by which grants are granted for the Units of the ISCIII Platforms to support R + D + I in Biomedicine and Health Sciences of the Strategic Action in Health 2017-2020

This contract is funded by Instituto de Salud Carlos III, with project file code PT20/00192 and co-financed by the European Regional Development Fund "A way of making Europe".

- Indefinite contract with three months trial.
- Annual workday of 1.627,50 hours (37,5 hours/week)
- Remuneration according to salary tables ISCIII
- Category A3B, Senior Research Technician.
- Innovation and Technology Transfer Office
