

## INTERNAL / EXTERNAL CALL

### The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the **Pharmacogenomics and Neurovascular Genetics**:

### R2A Junior Postdoctoral Researcher

#### About the Unit / Group:

The pharmacogenomics and neurovascular genetics research group, led by Dr. Israel Fernández, focuses its research on genetic and epigenetic studies of stroke. It also studies the intestinal microbiota to know the relationship of these microorganisms with the possibility of suffering a cerebral vascular accident. The aim of the group is to carry out translational research using these genomic tools, bioinformatics analysis and functional studies in vitro and in vivo.

The group participates in several international consortia, being members of the executive and scientific committees of these consortia. Labra itself, actively collaborates in four of these bodies that have their research focused on stroke genetics and/or associated diseases (IGSC, MEGASTROKE, CADISP and ICPC). The Stroke group currently coordinates a state-wide Genestroke consortium on the same topic that encompasses the work of about 15 hospitals and stroke centers in Spain.

### Essential requirements

- Minimum required degree of PhD (less than 5 years ago).
- Oral and written knowledge of the two official languages of Catalonia or, failing that, the successful candidate will have to demonstrate, or undertake to acquire, within a period not exceeding one year, a good knowledge of the two official languages of Catalonia.
- Intermediate level of English
- Intermediate level of office tools (Excel, Word, Power Point, etc).

### Skills will be valued

- Neurology specialist
- Knowledge of GWAS analysis

### Functions

- Bioinformatics analysis
- Genetic analysis

### Offered

- Indefinite contract assigned to the project 'Biomarcadors proteòmics cardiometabòlics e immunitaris de la Severidad de COVID-19' with file code 202107-31 financed with the support of the Foundation 'La Marató de TV3'.
- Annual working day of 1,627.50 hours (37.5 hours/week).
- Remuneration according to agreement
- Research Group: Pharmacogenomics and Neurovascular Genetics

## Documentation and deadline for submission

Interested parties should preferably deliver the documentation (1) in PDF, by e-mail to the Management of the Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau, address [ir\\_recursohumans@santpau.cat](mailto:ir_recursohumans@santpau.cat) , indicating the reference **2023/149.**:

### (1) Application letter and updated Curriculum Vitae

At the request of the Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau, the candidates must present the documentation accrediting the merits mentioned in the curriculum vitae.

Applications will be resolved within a maximum period of one month from the end of the deadline for submission of documentation. At the end of this period, without having been notified of an express resolution, the interested parties will be entitled to understand that their applications have been rejected.

The Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau may declare this call for applications closed if, according to its criteria, the candidates does not meet the conditions that the Institution considers necessary to fill the position.
