

INTERNAL / EXTERNAL CALL

The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it is a priority to ensure that the most suitable candidate is hired to fill a job through an open, transparent and merit-based selection process (OTM-R). Following these guidelines, staff mobility, knowledge exchange and, ultimately, the increase in the quality of teaching and research will be enhanced. Faithful to our commitment to the European Union's human resources strategy, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee equal access to employability for all. Therefore, the constitutional principles of equality, merit and ability are followed, respecting in all cases the national and international regulations in force in this area, specifically the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (C&C). The principles of C&C are applicable to the recruitment of any personnel of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of "Excellence in R+D in Research" granted to the IIB Sant Pau, since 2015.

HR EXCELLENCE IN RESEARCH

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the **Neurobiology of Dementias Group - Multilingual Aphasia & Dementia Research Lab.:**

T2- Research Technician

About the Group:

This multidisciplinary team is made up of more than 60 researchers including neurologists, neuropsychologists, speech therapists, biologists, biochemists, engineers, and laboratory technicians. This is a highly translational team that combines basic research with human clinical research to advance our understanding of these diseases. The group is very productive generating publications and attracting competitive resources. The group regularly trains national and international residents, master's students, and pre- and post-doctoral researchers. The group offers an excellent place for the training of young researchers in a unique translational environment.

Essential requirements

- Minimum qualification required: Higher Education (Bachelor's Degree in Speech Therapy (Logopedia) or Master's Degree in a related field).
- Oral and written knowledge of the two official languages of Catalonia.
- Advanced Level of oral and written knowledge of English.
- Availability to work during the evenings.
- Strong organization and project-management.
- Excellent communication and interpersonal skills.
- Ability to work independently and as part of a collaborative team.

Skills will be valued

- Previous experience in the coordination of research and/or clinical activities.
- Previous experience in the evaluation, diagnosis, and treatment of aphasia.
- Previous experience working with patients with neurodegenerative disease and, in particular, with progressive aphasia.
- Postgraduate education in neurologopedia.
- Interest in research and in completing a Doctoral thesis in the future.
- Previous experience with software used for data collection (RedCap) and data analysis (R).

Functions

- Coordinate and manage research projects in castellano and catalan in the context of a multicenter study under the direction of the site principal investigators and in collaboration with other team members across sites.
 - Assist in the development of research protocols and methodologies.
 - Collaborate with researchers to recruit and schedule study participants.
 - Collect, organize, and maintain research data and records.
 - Conduct literature reviews and assist in data analysis.
 - Prepare research reports, presentations, and publications.
 - Assist in the preparation and submission of research grant proposals.
 - Maintain compliance with research ethics and regulatory standards.
 - Provide administrative support for research activities, including budget management.
- Perform cognitive and linguistic evaluations (and possibly administer speech therapy) in castellano and catalan of patients with neurodegenerative disease.

Offered

- Indefinite contract linked to the research line “neurobiología del lenguaje para la aplicación clínica”.
- Annual workday of 1.627,50 hours (37,5 hours/week).
- Remuneration according collective agreement.
- Research Group: Neurobiology of Dementias Group - Multilingual Aphasia & Dementia Research Lab.
