

## INTERNAL / EXTERNAL CALL

### The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it is a priority to ensure that the most suitable candidate is hired to fill a job through an open, transparent and merit-based selection process (OTM-R). Following these guidelines, staff mobility, knowledge exchange and, ultimately, the increase in the quality of teaching and research will be enhanced. Faithful to our commitment to the European Union's human resources strategy, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee equal access to employability for all. Therefore, the constitutional principles of equality, merit and ability are followed, respecting in all cases the national and international regulations in force in this area, specifically the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (C&C). The principles of C&C are applicable to the recruitment of any personnel of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of "Excellence in R+D in Research" granted to the IIB Sant Pau, since 2015.

HR EXCELLENCE IN RESEARCH

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at Cellular Immunotherapy and Gene Therapy Group:

**T2- Research Technician**

## **About the Group:**

The Cellular Immunotherapy and Gene Therapy Group, at the Research Institute of the Hospital Santa Creu i Sant Pau, wishes to incorporate a researcher to lead a highly competitive project in the development of next-generation CART therapy for hematological cancer.

The Cellular Immunotherapy and Gene Therapy Group (GITG) focuses on the study of genetically modified T cells expressing chimeric antigen receptors (CAR) and their clinical application in patients with hematological neoplasms.

The GITG group at IR-Sant Pau is a consolidated group that develops and manufactures CART cells for the treatment of patients with lymphoid hematological neoplasms. In 2020, our group initiated a phase I clinical trial "first in Europe" with CART30 cells for patients with Hodgkin's lymphoma. Currently, Phase II in 2022 is ongoing and has also developed a second clinical trial in patients with refractory B-cell lymphomas using memory T cells expressing CAR19. The CART30 and CART19 products are entirely manufactured at Sant Pau by the GITG group following good manufacturing practices.

Their current research lines focus on the following aspects of cellular immunotherapy:

- Investigation of the antitumor efficacy of memory T cell subtypes.
- Study of the antitumor efficacy of stem memory T cells genetically modified with CAR.
- Development of new innovative 4th generation CARs targeting antigens expressed in hematological neoplasms.
- Development of clinical trials of CAR T cell immunotherapy in patients with lymphoid neoplasms; development of academic CART.
