

INTERNAL / EXTERNAL CALL

The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it is a priority to ensure that the most suitable candidate is hired to fill a job through an open, transparent and merit-based selection process (OTM-R). Following these guidelines, staff mobility, knowledge exchange and, ultimately, the increase in the quality of teaching and research will be enhanced. Faithful to our commitment to the European Union's human resources strategy, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee equal access to employability for all. Therefore, the constitutional principles of equality, merit and ability are followed, respecting in all cases the national and international regulations in force in this area, specifically the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (C&C). The principles of C&C are applicable to the recruitment of any personnel of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of "Excellence in R+D in Research" granted to the IIB Sant Pau, since 2015.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the Oncogenesis and Antitumor Drug group:

R2A- Junior Postdoctoral Researcher

About the Group:

The Oncogenesis and Antitumor Drugs group is a multidisciplinary team whose research aimed to develop and biologically validate new targeted nanomedicine to treat cancer. The main research lines in the lab are:

- Development of novel animal models of disseminated disease in solid tumours and haematological neoplasms for the mechanistic study of metastases and preclinical drug development.
- Identification of prognostic biomarkers in head and neck squamous cell carcinoma and their functional validation in vivo.
- Development of nanoconjugates for targeted delivery of antitumour drugs or toxins to metastatic stem cell.

The Group is within the Research Institute of the Hospital de la Santa Creu i Sant Pau (IIB-Sant Pau), which has been accredited as a Health Research Institute by the Health Institute Carlos III (ISCIII) and as a CERCA Center by the Generalitat of Catalonia. Additionally, the group is part of the Network Biomedical Research Center in Bioengineering, Biomaterials and

Nanomedicine of the Health Institute Carlos III (CIBER-BBN, CB06/01/1031) and has been recognized as a Consolidated Research Group by the Generalitat of Catalonia since 2005 (2021SGR-01140).

Essential requirements

- Minimum qualification required, PhD in a relevant science subject (less than 5 years)
- Oral and written knowledge of the two official languages of Catalonia or, failing that, the successful candidate will have to demonstrate, or promise to obtain, within a period not exceeding one year, a correct knowledge of the two official languages of Catalonia
- Intermediate Level of English
- Intermediate knowledge of office tools (excel, word, power point, etc)
- Must hold an experimental animal user certificate approved by The Catalan Government (functions a, b and c) or equivalent

Skills will be valued

- Hands-on in animal procedures
- Proven tissue culture and laboratory bench skills (western blot, PCR, ELISA)
- Knowledge in tissue processing and histopathological analysis
- Experience with statistical data analysis (SPSS, GraphPad Prism, etc)
- Knowledge in immunology
- Appropriate publication records
- International research experience
- Effective team working

Functions

- To develop and carry the scientific project focused on validate the use of a CXCR4 targeted nanoparticle to overcome immunotherapy resistance.
- To perform several tissue culture techniques, molecular and biochemical assays and experimental procedures in animals required for this project.
- To keep up with the literature related to the project/field to ensure timely progression of the work.
- To collect and analyse data
- To maintain appropriate databases, keeping accurate written and computerised records.
- To prepare reports and scientific publications to disseminate results from the programme of research
- To supervise and train where necessary new members of the research team

Offered

- Temporary contract due to production circumstances to take on tasks arising from a temporary and unpredictable increase within the unit.
- Annual workday of 1.627,50 hours (37,5 hours/week)
- Salary according collective agreement (33.161,38 annual gross)
- Research Group: Oncogenesis and Antitumor Drug Group

Documentation and deadline for submission

Interested parties should preferably deliver the documentation (1) in PDF, by e-mail to the Management of the Santa Creu i Sant Pau Hospital Research Institute Foundation, address ir_seleccio@santpau.cat , indicating the reference **2024/128**:

**(1) Application letter and updated Curriculum Vitae
and signed Data Processing Authorization****

At the request of the Santa Creu i Sant Pau Hospital Research Institute Foundation, the candidates must present the documentation accrediting the merits mentioned in the curriculum vitae.

Applications will be resolved within a maximum period of one month from the end of the deadline for submission of documentation. At the end of this period, without having been notified of an express resolution, the interested parties will be entitled to understand that their applications have been rejected.

Santa Creu i Sant Pau Hospital Research Institute Foundation may declare this call for applications closed if, according to its criteria, candidates does not meet the conditions that the Institution considers necessary to fill the position.

The interpretation of the requirements and their enforceability to the candidates will be exclusive to the Santa Creu i Sant Pau Hospital Research Institute Foundation.

****It is essential to attach the duly signed data processing authorization (document attached at the end of the call) ****

**The deadline for submitting applications
will end on August 13th, 2024, at 3:00 p.m.**

Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau, sited at C. Sant Quintí, 77-79, 08041, Barcelona, Tel: 93 291 90 50, NIF: G-60136934, as Data Controller and in compliance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) and the Organic Law 3/2018 of 5th of December, on the protection of personal data and the guarantee of digital rights, will treat your data with the sole purpose of developing this call. The legal basis for this treatment is the article 6.1 a, c and f from the GDPR, giving that we will ask for your consent, the treatment is necessary for the application of precontractual measures and its necessary to satisfy the legitimate interests pursued by the Data Controller.

The data will be kept during the necessary time to develop the call. Data will be treated solely by that areas and services that are allowed to in accordance with their assigned competences and functions. AUTHORISATION FOR PROCESSING PERSONAL DATA

Dear candidate:

The Fundació Institut de Recerca del Hospital de la Santa Creu i Sant Pau, with CIF G-60136934 and registered office at C/ Sant Quintí, 77-79, (08024) Barcelona, as data controller, informs you that it will process your data for the following purposes:

- Receipt of applications.
- Analysis of applications in order to incorporate the worker into the team of the Fundació Institut de Recerca del Hospital de la Santa Creu i Sant Pau, for a current vacancy and for future selection processes that fit your profile.
- To carry out personnel selection processes, as well as to formalise the hiring of the employee, if applicable.
- Comply with the required legal obligations.

The legitimate basis for processing the data is based on the legitimate interest of processing this job offer, in accordance with the provisions of Article 6.1 b) of the General Data Protection Regulation, as your data are necessary for the performance of a contract, which the data subject is a party or for the implementation of pre-contractual measures at his or her request.

However, we inform you that your data (i) will only be processed by those departments or areas of the Institute which, according to their competencies and functions, have an interest in the selection of personnel, (ii) may be communicated to public authorities and organisations, in order to comply with a legal obligation, such as service providers and third parties necessary for the management and execution of the relations derived from the request made and (iii) that they will be kept for the periods foreseen for the prescription of legal responsibilities.

Finally, we inform you that you have the right to access your personal data, to rectify them, to request their deletion, to oppose their processing and to revoke your consent to this processing. In certain circumstances, you may request that we restrict the processing of your personal data, in which case we will only retain your personal data for the exercise or defence of claims. In addition, you have the right to make a complaint to the relevant data protection authority. If you have any questions about the processing of your data you can contact the Entity's Data Protection Officer by sending an email to dpd@santpau.cat.
