

## INTERNAL / EXTERNAL CALL

### The Institute

**The Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau** (IR Sant Pau) is a scientific foundation whose mission is to improve the health and quality of life of the population through the production and dissemination of scientific knowledge, the training of researchers at an international level, and the promotion of innovation and health by integrating medical advances into clinical practice and health policies. Established in 1992, it has been a center of excellence affiliated with the Autonomous University of Barcelona (UAB) since 2009 and has been part of the CERCA (Research Centers of Catalonia) network since 2011.

For the Foundation, it is a priority to ensure that the recruitment of the most suitable candidate to fill a job is done through an open, transparent and merit-based (OTM-R) selection process. Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to employment. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter for Researchers and the Code of Conduct for the recruitment of researchers (C&C). The principles of C&C are applicable for the recruitment of any staff of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of "Excellence in R&D in Research" awarded to the IIB Sant Pau, since 2015.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the Nephrology group:

**T4A RD24 ISCI**

## About the Unit / Group:

The Research Group on Urban Health Inequalities (GIUH), linked to the Public Health Agency of Barcelona (ASPB), aims to rigorously investigate health inequalities by analyzing the social, environmental, and political determinants that contribute to their unequal distribution based on gender, social class, migration background, and geographic area. We apply a population-based approach and develop theoretical frameworks and innovative methodologies to understand how these factors interact and influence urban health. Our focus is on studying policies and interventions that can reduce health inequalities, identifying both local dynamics and national and transnational influences in public policy formulation.

One of our current projects aims to understand how housing insecurity affects children's health and well-being, design interventions that empower them, and propose strategies to minimize this impact, all based on the active participation of affected children.

## Essential requirements

- Minimum required qualification: Degree in Medicine, Psychology, Sociology, or Political Science and Public Administration.
- Training in Public Health.
- Oral and written proficiency in both official languages of Catalonia. If the selected candidate does not meet this requirement, they must demonstrate or commit to acquiring a proper level of both languages within a maximum period of one year.
- Advanced level of English.
- Advanced proficiency in office tools (Excel, Word, PowerPoint, etc.).

## Skills will be valued

- Knowledge of qualitative analysis, particularly in participatory methodologies.
- Research experience in health inequalities and childhood.
- Ability to interact with community agents and educational institutions.
- Organized and methodical work habits, with self-management skills.
- Teamwork and collaboration skills in interdisciplinary environments.
- Scientific writing and research dissemination skills.

## Functions

- Management and coordination of a research project linked to the group's research line.
- Design, planning, and execution of fieldwork with schools, NGOs, and other community agents related to the territory and childhood.
- Data collection and qualitative analysis following the principles of Participatory Action Research.
- Organization and participation in research group activities, including follow-up meetings and discussion sessions.
- Writing and publishing research results in scientific journals and presenting at national and international conferences.
- Coordination with other teams and institutions to ensure knowledge transfer and the impact of research on public policies.

## Offered

- Temporary contract due to production circumstances to undertake tasks resulting from a temporary and unforeseeable increase in workload within the unit.

With the support of the Department of Research and Universities of the Generalitat of Catalonia file number 2021 SGR 01462

- Annual working hours of 1,627.50 hours (37.5 hours per week).
- Salary according to IR pay scales.
- Research Group: Urban Health Inequalities Group.
