

INTERNAL / EXTERNAL CALL

The Institute

The **Research Institute of the Hospital de la Santa Creu i Sant Pau Foundation** (IR Sant Pau) is a scientific foundation whose mission is to improve the health and quality of life of the population through the production and dissemination of scientific knowledge, the training of researchers at an international level, and the promotion of innovation and health through the incorporation of medical advances into clinical practice and health policies. Created in 1992, it is a center of research of excellence attached to the Autonomous University of Barcelona (UAB) since 2009 and, since 2011, it is a CERCA center (Research Centers of Catalonia).

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of the "Excellence in R + D in Research" granted to the IIB de Sant Pau, since 2015.

HR EXCELLENCE IN RESEARCH

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the Genomic Instability and DNA Repair Syndromes:

R2A- PMP ISCIII 22

About the Unit / Group:

The Genomic Instability and DNA Repair Syndromes research group, coordinated by Dr. Jordi Surrallés, works in the field of human genetic diseases characterized by a high predisposition to cancer.

Many of these syndromes are caused by mutations in genes involved in DNA repair. These genes are important to avoid the accumulation of mutations and prevent tumor transformation.

Research on these syndromes is important to unravel the mechanisms that protect us from cancer.

In recent years, the team has identified and studied new genes involved in these syndromes and has conducted therapeutic research that has led to the designation of orphan drugs by the European Medicines Agency.

The group's researchers also participate in various clinical trials on gene therapy and drug repositioning, and investigate the DNA repair genes involved in these syndromes as therapeutic targets against cancer in the general population.

There are increasingly new therapeutic strategies based on a deep understanding of the genetic causes of the disease. Therefore, an adequate genetic diagnosis is important not only to provide good genetic counseling and clinical follow-up to patients and their families, but also to provide personalized medicine based on genomic information.

Essential requirements

- Minimum required qualification of Doctor (less than 5 years ago)
Doctorate in Medicine, Biomedicine, Bioinformatics, Biotechnology, Genetics, Biology, Pharmacy or similar
- Intermediate level of office tools (Excel, Word, PowerPoint, etc.).

Skills will be valued

- Experience in human genetics and cancer predisposition syndromes
- Experience in genes and biochemical pathways involved in DNA repair
- Experience in conducting functional studies of DNA repair pathways
- High level of English

- Oral and written knowledge of the two official languages of Catalonia or, failing that, the selected candidate must demonstrate, or commit to acquire, within a period not exceeding one year, a correct knowledge of the two official languages in Catalonia.

Functions

- Conducting functional studies of genes and DNA repair pathways
- Application of advanced genomic medicine techniques

Offered

- Temporary contract attached to the project: "IMPACT-VUSCan" PMP22/00054 executed with funds from NextGenerationEU, which finances the actions of the Recovery and Resilience Mechanism (MRR), with the Carlos III Health Institute being the funding entity.

- Annual working hours of 1,627.50 hours (37.5 hours/week)
- Remuneration according to ISCIII salary tables
- Research Group: Genomic Instability and DNA Repair Syndromes

Documentation and deadline for submission

Interested parties should preferably deliver the documentation (1) in PDF, by e-mail to the Management of the Santa Creu i Sant Pau Hospital Research Institute Foundation, address ir_seleccio@santpau.cat , indicating the reference **2025/033**:

**(1) Application letter and updated Curriculum Vitae
and signed Data Processing Authorization****

At the request of the Santa Creu i Sant Pau Hospital Research Institute Foundation, the candidates must present the documentation accrediting the merits mentioned in the curriculum vitae.

Applications will be resolved within a maximum period of one month from the end of the deadline for submission of documentation. At the end of this period, without having been notified of an express resolution, the interested parties will be entitled to understand that their applications have been rejected.

Santa Creu i Sant Pau Hospital Research Institute Foundation may declare this call for applications closed if, according to its criteria, the candidates does not meet the conditions that the Institution considers necessary to fill the position.

The interpretation of the requirements and their enforceability to the candidates will be exclusive to the Santa Creu i Sant Pau Hospital Research Institute Foundation.

****It is essential to attach the duly signed data processing authorization (document attached at the end of the call) *****

**The deadline for submitting applications
will end on March 24th 2025, at 3:00 p.m.**

AUTHORISATION FOR PROCESSING PERSONAL DATA

Dear candidate:

The Fundació Institut de Recerca del Hospital de la Santa Creu i Sant Pau, with CIF G-60136934 and registered office at C/ Sant Quintí, 77-79, (08024) Barcelona, as data controller, informs you that it will process your data for the following purposes:

- Receipt of applications.
- Analysis of applications in order to incorporate the worker into the team of the Fundació Institut de Recerca del Hospital de la Santa Creu i Sant Pau, for a current vacancy and for future selection processes that fit your profile.
- To carry out personnel selection processes, as well as to formalise the hiring of the employee, if applicable.
- Comply with the required legal obligations.

The legitimate basis for processing the data is based on the legitimate interest of processing this job offer, in accordance with the provisions of Article 6.1 b) of the General Data Protection Regulation, as your data are necessary for the performance of a contract, which the data subject is a party or for the implementation of pre-contractual measures at his or her request.

However, we inform you that your data (i) will only be processed by those departments or areas of the Institute which, according to their competencies and functions, have an interest in the selection of personnel, (ii) may be communicated to public authorities and organisations, in order to comply with a legal obligation, such as service providers and third parties necessary for the management and execution of the relations derived from the request made and (iii) that they will be kept for the periods foreseen for the prescription of legal responsibilities.

Finally, we inform you that you have the right to access your personal data, to rectify them, to request their deletion, to oppose their processing and to revoke your consent to this processing. In certain circumstances, you may request that we restrict the processing of your personal data, in which case we will only retain your personal data for the exercise or defence of claims. In addition, you have the right to make a complaint to the relevant data protection authority. If you have any questions about the processing of your data you can contact the Entity's Data Protection Officer by sending an email to dpd@santpau.cat.

Consent

I have been informed about the processing of my data and I consent to the processing:

YES

NO
